Summary

A year at Bypass, a product web studio: built sites and landing pages from scratch to the mockup, shipped edits and redesigns in other people's code, fixed layouts, forms and scripts. Kept quality up: manual QA by checklists plus Playwright auto-QA for regressions, and Python scripts for bulk edits across dozens of pages. Daily tools: Claude Code, Cursor and agentic workflows — spec → plan → implement → verify.

Experience

09.2025 — 11.2026 · 1 yr 3 mos

Junior Frontend Developer · Bypass

- **Sites and landing pages: from brief to launch.** 5–10-page sites on Tailwind or custom CSS: responsive layouts, validated forms, cookie banners, Leaflet maps, sliders, FAQs, legal pages. My part of the pipeline — taking them to launch: domain, brand and contacts across all pages, sitemap/robots, link normalisation, photo selection, the tracking kit (GA4/Bing/FB) and the form redirect, layout checks in two viewports; all through a corporate GitLab. HTML · CSS · Tailwind · JavaScript · Leaflet · Git/GitLab
- **Redesigns, edits, fixes.** New blocks and features in existing sites, section redesigns, fixes to layouts, forms and scripts; JavaScript for new element behaviour. Over the year — 6,300+ commits in 5,000+ repository branches: ~1,500 bulk updates of 8–10 files at once (domains, contacts, legal blocks, tracking) via my own scripts; a series of 6 finance digests moved from PHP templates to static pages; 14 site copies of up to 3,500 files each imported. HTML · CSS · JavaScript · Python · Git
- **Auto-QA and bulk-edit scripts.** Manual QA checklists (cross-browser, mobile, forms); Playwright auto-tests for regressions after edits; Python scripts for bulk editing and checking pages; Lighthouse audits. Grew into the internal qa_lab platform (separate clip). Playwright · Python · Lighthouse · node:test
- **Examples of sites taken to launch (4).** Artemis Gallery · art advisory (JP) · Eiskristall · winter holidays (CH) · Fumo Antico · gastronomy tours (CH/IT) · Precision · watch repair (AE, RTL)

10.2024 — 08.2025

Freelance Front-end Developer

- **Freelance · client sites.** First jobs as a freelance front-end developer: landing pages and small multi-page sites built to mockups — markup, responsive layouts, forms, basic JavaScript; edits and upkeep of clients' existing sites. Examples in the clips that follow. HTML · CSS · JavaScript · Responsive
- **Examples of sites taken to launch (4).** DashDoor · property rentals (CA) · Homespot · home rentals (CA) · KeyFind · property rentals (CA) · Family Law Pro · legal services (CA)

09.2021 — 09.2024

Data Analyst · Collar, Chernihiv

- **Collar · Data Analyst.** Market reports for the Americas, Europe and Ukraine; responsive dashboards for internal reporting; components for data-visualization platforms; updates to the company site (forms, design, fixes); Python automation for data processing. SQL · Power BI · Python · HTML/CSS · JavaScript
- **Collar · website administration.** Keeping the company sites running: layout and style edits, content and banner updates, admin-panel work (pages, menus, forms, product cards), small tasks — redirects, meta tags, broken links and images, image preparation. HTML/CSS · JavaScript · CMS / admin panel · SEO basics

10.2019 — 07.2021

Marketer · SMM Curatorship, Chernihiv

Consulting for companies, sales-call audits, sales scripts, running ad campaigns to profitability.

Projects

- **Portfolio v2 · this site** — A cinematic resume in plain HTML/CSS/JS 11.2026 · HTML · CSS · JavaScript · GSAP · Lenis · github.com/Q42fmr/Portfolio

- **Velocímetro Brasil · speed test** — A real speed test on Next.js, static export `10.2026 · Next.js · React · TypeScript · CSS Modules · Vitest · GitHub Actions · q42fmr.github.io/velocimetro-brasil/ · github.com/Q42fmr/velocimetro-brasil`
- **Verde · plant web shop** — Vue 3 + Router: catalogue, product page, cart, checkout `09.2026 · Vue 3 · Vue Router · Vite · JavaScript · CSS · LocalStorage · q42fmr.shop/portfolio/plant-shop/`
- **Site-mirror parser** — Static site copies with a web UI, CLI and SPA “freeze” `08.2026 — 09.2026 · Node.js · Playwright · Cheerio · node:test · SOCKS5 · github.com/Q42fmr/site-mirror-parser`
- **qa_lab · QA and auto-fix for hundreds of sites** — 62 checks, 51 autofixes, one commit per branch `07.2026 — 10.2026 · Python · FastAPI · Headless Chrome (CDP) · GitLab API · ClickUp API · Anthropic API · Docker · JavaScript · github.com/Q42fmr/qa_lab`
- **Insight · BI dashboard** — Overview, transactions, products, customers `06.2026 · HTML · Tailwind · JavaScript · Chart.js · q42fmr.shop/portfolio/analytics-dashboard/`
- **Assistant · task manager with AI** — Tasks, schedule, notes and an LLM chat in one SPA `05.2026 · Vue · Vite · Cloudflare Functions · Anthropic API · LocalStorage · q42fmr.shop/portfolio/Assistant/ · github.com/Q42fmr/Assistant`
- **Flow · dance studio website** — Styles, a filterable schedule, trainers, pricing `04.2026 · HTML · Tailwind · JavaScript · q42fmr.shop/portfolio/dance-studio/`
- **Anna Kovalenko · photographer website** — Galleries by genre, lightbox, packages `02.2026 · HTML · Tailwind · JavaScript · q42fmr.shop/portfolio/photographer-portfolio/`
- **KAVA Roasters · coffee shop website** — Menu, roastery, table booking `12.2025 · HTML · Tailwind · JavaScript · q42fmr.shop/portfolio/coffee-landing/`
- **Pulse · SaaS product site** — Landing, features, pricing, case studies, legal `10.2025 · HTML · Tailwind · JavaScript · q42fmr.shop/portfolio/saas-landing/`
- **Python parsers and data automation** — From marketplace scrapers to recurring scripts for Collar `01.2022 — 09.2024 · Python · BeautifulSoup · Selenium · Pandas · Aiogram · github.com/Q42fmr/Parsing`

Skills

Front end: HTML5 · CSS / SCSS · Tailwind · JavaScript (ES2022+) · Vue 3 + Vite · React / Next.js (basic) · TypeScript (basic) · Responsive & a11y

QA & automation: Playwright · Vitest / node:test · Selenium · Lighthouse / Web Vitals · QA checklists · Python scripts for bulk edits

AI-assisted engineering: Claude Code (spec → plan → implement) · Cursor · RooCode · Codex / Copilot · LLM API (Anthropic) · Prompt engineering · MCP · n8n · Local LLMs · Agentic orchestrators (omp, Orca)

Back end & data: Python (Pandas, Aiogram, BS4) · SQL · MongoDB · Node.js · Cloudflare Pages / Functions · REST APIs

Analytics: Power BI · 1C · Market / sales reporting

Workflow: Git / GitLab · Jira · Asana · Notion · Bitrix · Miro

Education

ChTTK (Chernihiv Technical College) — Technical college, computer science track `2010 — 2014`

ChNTU · Chernihiv National University of Technology — Computer engineering (Institute of Business and Law); incomplete degree `2014 — 2017`

Genius Space — Business Analyst in IT `2024 — 2025`

ItGrid — Front-end course `2025`
