Summary

A year at a product web studio under NDA: built sites and landing pages from scratch to the mockup, shipped edits and redesigns in other people's code, fixed layouts, forms and scripts. Kept quality up: manual QA by checklists plus Playwright auto-QA for regressions, and Python scripts for bulk edits across dozens of pages. Daily tools: Claude Code, Cursor and agentic workflows — spec → plan → implement → verify.

Experience

09.2025 — 10.2026 · 1 year

Junior Frontend Developer · under NDA

- **Sites and landing pages from scratch.** Single-page landings and multi-page sites built to mockups: semantic markup, responsive layouts, forms, script and tracking integration; teamwork in a corporate GitLab flow. HTML · CSS/SCSS · Tailwind · JavaScript · Git/GitLab
- **Redesigns, edits, fixes.** New blocks and features in existing sites, section redesigns, fixes to layouts, forms and scripts; JavaScript for new element behaviour. HTML · CSS · JavaScript · Git
- **Auto-QA and bulk-edit scripts.** Manual QA checklists (cross-browser, mobile, forms); Playwright auto-tests for regressions after edits; Python scripts for bulk editing and checking pages; Lighthouse audits. Grew into the internal qa_lab platform (separate clip). Playwright · Python · Lighthouse · node:test

09.2021 — 05.2025

Analyst · Collar, Chernihiv

- Market reports for the Americas, Europe and Ukraine; responsive dashboards for internal reporting; components for data-visualization platforms; updates to the company site (forms, design, fixes); Python automation for data processing. SQL · Power BI · Python · HTML/CSS · JavaScript

10.2019 — 07.2021

Marketer · SMM Curatorship, Chernihiv

Consulting for companies, sales-call audits, sales scripts, running ad campaigns to profitability.
